

# Covid-19 protocol B&B Hof van Wolder

We have a protocol at B&B Hof van Wolder with the aim of preventing the spread of the corona virus at our accommodation. We want to offer you a safe stay. Due to the isolated location and the strict guidelines, few places in the Netherlands will be safer.

## *Guideline 1 – “single party” policy*

B&B Hof van Wolder has only one guestroom. With only one room, we can guarantee you that there are no other guests.

## *Guideline 2 – physical distance*

Normally we give a tour in our Bed and Breakfast. We replace this approach by providing a written brochure with the necessary information. We stay 1.5 meters (2 arms lengths) away from other people. We don't shake hands, we wash our hands with soap and water. We cough and sneeze into our elbow. We use paper tissues to blow our nose and discard them after use. Breakfast is served in the dining room before guests will enter the room.

## *Guideline 3 – no guests with symptoms*

We ask our guests not to come to our B&B in case of symptoms, such as coughing, sneezing, running nose, sore throat, or fever. In case of getting symptoms during your stay, we also apply this guideline. This of course does not apply to occasional coughing or sneezing!

## *Guideline 4 – absolute hygiene*

We ensure that B&B Hof van Wolder is always clean. We are now paying even more attention to hygiene, we clean all places where people could leave the virus such as door handles, light knobs, table tops, and toilet sinks, toilet seats, wash basins, etc. with disinfectant soap the guest room.

## *Guideline 5 – we don't have symptoms*

In the unlikely situation that one of us develops symptoms, such as coughing, sneezing, runny nose, sore throat, or fever, we will close the accommodation until the person is cured of the symptoms. In that situation, we are unfortunately forced to cancel your booking in your interest (and free of charge for you).
